MARBLE & GRANITE

LEADERS IN STONE BENCH TOPS

After watching Michael perform at Jupiter's Casino we knew he would be perfect for our 20 Year Gala Celebrations.

Michael and Donna came in to see us a month before the event, we were astonished at the professionalism they brought to the meeting.

As Michael was not only our comedian for the night he was also going to MC the event for us.

The ideas they gave us on not only on the running of the night but the table seatings and how to engage the audience was amazing.

On the night Michael and Donna were there to greet all the guests, they started at the photo booth and engaged everyone in, starting the night superbly.

Michael asked the question on what level he can go to with his performance. As he had two acts to do we asked him to keep the first one lightly as there were children in the room, we then told him there were no limits on the second act as it was adults only.

I will not forget looking around the room and seeing 150 guest laughing till they cried he was brilliant.

As for the MC, for someone that did not know our Company very well you would not have known it on the night, in every way he drew our clients in.

It has been four weeks since our celebration but every time I am out to dinner with clients or talk to them Michaels name keeps coming up and there contagious laugh starts again.

On a personal note – the next day Michael and Donna popped back into the Marriott where we were all staying, my children had arrived to spend the day. During my course of speaking to Michael I had mentioned about how bullying has affected my boys, he took an hour out of his Sunday and did some amazing tricks with the boys that all had a message, one which they will not forget was "Believing in themselves". I cannot thank them enough.

Michael and Donna made our night so memorable for everyone who attending the evening.
